

Apply for a position at Advanced Pressure Technology (AP Tech) of Napa. We manufacture a wide array of gas handling components used primarily for the semiconductor industry. We offer great job opportunities with competitive salary and benefits for hard working, detail oriented, committed people.

We are accepting resumes for the following position, Clean Room Quality Control Inspector. This is a non-exempt position with a work schedule of Monday through Friday 5:30am – 4:00pm and some Saturdays 6:00am – 12:00pm.

Clean Room Quality Control Inspector

The Quality Control Inspector position entails performing all in-process or final inspection on parts, materials and products produced in our Clean Room environment. An ideal candidate will be familiar with working with Vernier calipers, microscopes and sight pipes to ensure that the product complies with specifications contained in engineering drawings and quality assurance procedures. In this position you will maintain records of all parts inspected and rejected. Fill out corrective action request and/or rework request when applicable. Work with Clean Room manager, engineering, and quality assurance departments on compliance issues. Work with the Clean Room Manager to prioritize and facilitate work flow.

Other responsibilities may include racking parts, capping parts, removing labels/placing labels and delivering inspected products to the next process. You might also assist in other areas of the Clean Room as directed by Clean Room Manager.

Education and/or Experience:

Requires a High School education or GED and must have at least 2-3 years in QC environment, particularly visual inspection. Mechanical background and/or previous experience in the industry are also a plus. Some on-the-job training will be provided. Must be able to read, write, & understand English. Pay range \$13 - \$15 DOE
